Capacity  
Building  
Regular  
Program

## Our Capacity Building Background

Establish a program aimed at enhancing the skills of leaders and individuals in the public sector. The objective of this program is to improve their knowledge, network, hard skills, and soft skills with a focus on developing concepts for smart cities. It guarantees compliance with laws (PP No.59/2022) and illustrates our dedication to the SDGs and the ASEAN 6 pillars of smart city focus.

As a result of our collaboration with the Ministry of Home Affairs of the Republic of Indonesia (Kemendagri), we can confidently provide interesting and entertaining educational experiences. Located in the heart of Bali's many cultural offerings and outdoor activities, Jimbaran Hijau offers an inspiring setting. We've created an open network that crosses national and international boundaries, creating an atmosphere full of opportunities.
