

Goodshare<sup>SM</sup>

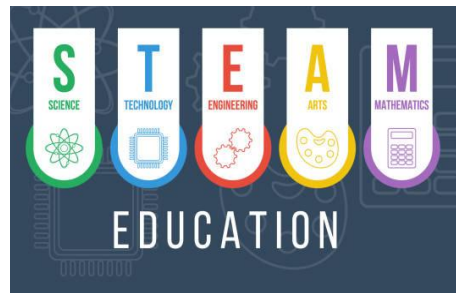

Goodness  
Today For  
Tomorrow

## LEARN • PLAY • CHILL • LAUGH

Learning should be a blast! We're all about making things work better when they're a blast. When we have a great time together, playing and sharing experiences, that's when the magic happens! And we're all about diving into the world of Science, Technology, Engineering, Arts, and Math (STEAM) while working towards those global Sustainable Development Goals (SDGs).

# SUSTAINABLE DEVELOPMENT GOALS

## How does the program work?

The Goodshare monthly program is offered to you in collaboration with ASECH SQUAD and our dedicated partners. It is a dynamic inquiry spearheaded by a community of young enthusiasts ranging in age from 12 to 35.

Our program is a fusion of exploration and cooperation that brings together expert speakers, lively interactions, inspiring discussions, and tasty treats. Teachers, students, and STEAM enthusiasts from all around the country and the world are welcome to participate.

Beyond simply creating smart cities, Goodshare is reinventing what it means to enjoy education and creativity. Our approach is driven by our core principles, which include a proactive attitude, a spirit of good communication, a collaborative ethos, analytical thinking, empathy, a caring attitude, and our attention to making things fun. Join us as we unlock the potential of the young generation to build a better generation.
