

# EDUCATIONAL ECO-TOURS

## Tours For Sustainable Impact

## Educational Eco-Tours Background

A theme that combines tour, learning, education, sustainability, and positive impact could be "Educational Eco-Tours for Sustainable Impact." This theme focuses on Point of Interest that not only provide valuable learning experiences but also promote sustainability and leave a positive impact on the environment and local communities.

The tour has been categorized as a center of excellence in the field of smart cities, centers of excellence in the field of people with disabilities, marine conservation, eco tourism, eco villages. In addition, this tour will be held in Bali.

This tour will organise numerous events in Bali, one of which will be a session led by an ASECH expert at Jimbaran Hub, followed by a tour of historical, cultural sites and eco-friendly destinations. We will also visit environmental villages and markets where local products are offered.

Moreover, seeing the Disability Centre of Excellence and various other sites that are really intriguing and unforgettable is not less exciting.

## Time to call us now!
